PROFESSIONAL SUMMARY

I build secure and reliable web applications that turn manual processes into faster, automated systems. Using modern technologies and AI-powered tools, I create efficient solutions that improve workflow, accuracy, and overall business performance while keeping data and system security a top priority.

TECHNICAL PROJECTS

AM GROUP Machine Inventory & Quotation Builder | Internship Project

Tech Stack: JavaScript, PHP, MySQL, HTML/CSS

- Developed an inventory web app with secure, role-specific routing for internal teams.
- Automated PDF proposal generation by auto-fetching live product and pricing data.

SOLE AVENUE PH Inventory & Stockroom Hub | Internship Project

Tech Stack: Google Apps Script, JavaScript, HTML/CSS, Google Sheets

- Engineered an automated stockroom dashboard for instant SKU-to-rack matching.
- Designed a strictly minimalist, black and white UI to reduce staff visual fatigue.
- Eliminated manual stock bottlenecks using real-time database polling.

AM GROUP Purchase Order System | Internship Project

Tech Stack: Google Apps Script, HTML/CSS, Google Sheets

- Built an automated workflow engine to replace manual purchase order paperwork.
- Auto-generated formatted, error-free PO documents to streamline procurement.

PRIME FOOD LAB Stock Inventory System | Internship Project

Tech Stack: Google Apps Script, Google Sheets, HTML/CSS,

- Developed a specialized tracking system to maintain precise food lab stock levels.
- Streamlined ingredient management entirely within the Google Workspace ecosystem.

ALEINAH'S RESORT BOOKING AND FINANCIAL MONITORING SYSTEM | Capstone Project

Tech Stack: PHP, MySQL, JavaScript, HTML/CSS, PayMongo API

- Built a full-stack booking dashboard, replacing legacy spreadsheet workflows.
- Integrated PayMongo API for live payments and automated employee payroll.

PROFESSIONAL EXPERIENCE

IT & Systems Developer Intern | ZWART Trading OPC (Sole Avenue PH) | Jan 2026 - Mar 2026

- Completed a 600-hour internship engineering automated inventory database systems and low-fatigue UI dashboards for stockroom operations.

Systems Developer Intern | AM Group/Prime Food Lab | Mar 2026 - May 2026

- Developed automated inventory tools and custom PDF document generators to streamline commercial equipment procurement.

Administrative Intern | Elsa Liwanag Tinsay Accounting and CPA's | Summer

- Provided operational support, streamlined daily office workflows, and maintained accurate financial record-keeping.

EDUCATION

Bachelor of Science in Information Technology

Bulacan State University Main Campus | 2026

Science Technology Engineering and Mathematics

Bulacan State University Main Campus | 2022

TECHNICAL SKILLS

Languages & Core: *JavaScript, PHP, HTML/CSS, Python, Node.js, Java, C++*

Databases & APIs: *MySQL, PayMongo API, REST API Integration*

Tools & Frameworks: *Google Apps Script, Git/GitHub, Google Workspace Automations, Canva*

CERTIFICATIONS

- Cisco Introduction to Cybersecurity (2025)
- Cisco Cyber Threat Management (2025)
- Foundations of Business and Entrepreneurship (2024)
- ISO/IEC 20000 IT Service Management Associate (2024)
- ILeap Intellectual Property Course (2024)
